Know the company

The Jumbo Business Group S.à.r.l. was established in 1993.
The company has its registered office and administration in Schengen, Luxembourg.

Jumbo Tipp offer you the advantages of the **systembetting** of the **Euro-Million-Lottery of the 10 EU states** (France, England, Liechtenstein, Spain, Portugal, Switzerland, Ireland, Austria, Belgium and Luxembourg) to all interested players at home and abroad.

The marketing plan

Every company, including Jumbo Tipp, has its own commission and marketing plan.

We have tried to make our plan simple and easy to understand, but if you still have problems to understand and implement it after reading this presentation, please contact us, or your sponsor.

Jumbo Tipp has a UNILEVEL plan on 8 levels, which means you are able to collect commission from your organisation 8 levels deep. Please, see the frame below. The width is unlimited.

What do you have to invest?

The marketing plan of Jumbo Tipp doesn't require neither basic equipment nor minimum transactions, nor are you committed to team-building or anything else.

In many other companies it is necessary to buy a certain core product presentation for the daily work and take unmanageable financial risks (Front Loading).

In Jumbo Tipp you are offered a license with which you provide the products of Jumbo Tipp mediate. The license include the participation in the **Euro-Tipp-DeLuxe®**

What can you earn?

You will receive commissions from all transactions made in your organisation.

In the beginning, commission from sales that you have made, will be your main source of income.

However, after a while and according to the growth of your organisation, the commissions from the sales of your partners will exceed your own.

You will receive commissions for all subsequent months in which your customers and clients in the organisation acquire products or licenses from Jumbo Tipp.

Because Jumbo-Tipp take care of the entire administrative work, you can calmly look for **new** customers, and/or train your structure partners in order to develop your organisation.

Rates of remuneration

Jumbo Tipp offer a UNILEVEL marketing plan working 8 levels deep, plus a bonus system.

In a UNILEVEL plan you earn the commissions at different levels as soon as the products are paid. There is no limit in width. You are welcome to involve an unlimited number of customers and / or licensee in your first level, which means you have an unlimited income potential.

The secret of success in network marketing is, however, not a "one-man-show", but to build and develop an organisation of players and /or partners. Please, never forget to support and look after those who are willing and motivated.

The UNILEVEL plan is absolutely fair because Jumbo Tipp **does not** require minimum sales in order to be entitled to commission. With the monthly purchase of your license, you have the full entitlement to the commissions every month.
